- Provides immediate, long lasting colour and controlled growth.
- L-amino acids are easily absorbed by plants and enhance uptake for most tank mix products.
- Improves the plant's ability to create necessary proteins and protein structures.
- Utilization of L-amino acids allows the plant to conserve energy and strengthen root systems.
- Provides organic molecules that increase chlorophyll and photosynthesis.
- Offers excellent compatibility and no burn risk at recommended rates.

18-3-4 Zeta \times Plex provides safe, reliable nutrients enhanced with patented amino technology and our plant derived L-amino acid package. These bioactive ingredients increase nutrient absorption and maximize plant nutrition through the use of low dose applications. 18-3-4 increases nutrient uptake, nutrient transport, and improves plant tolerance of environmental stress.

DIRECTIONS FOR USE

GOLF COURSE GREENS & TEES

Apply 88 ml to 266 ml per 93 m² (3.0 to 9.0 US fl oz per 1000 sq ft) in enough water to provide sufficient foliar coverage. Apply every 7 to 14 days throughout the growing season. Rapidly growing turf may require higher rates.
