

Foliar Relief

3-7-18

GUARANTEED MINIMUM ANALYSIS

Total Nitrogen (N).....	3%
Available Phosphate (P ₂ O ₅)	7%
Soluble Potash (K ₂ O)	18%
Boron (B) (Actual).....	0.02%
Iron (Fe) (Actual)	0.1%
Manganese (Mn) (Actual)	0.1%
Zinc (Zn) (Actual).....	0.1%

Derived from: Urea, Phosphorus Acid, Tetra Potassium Pyrophosphate, Boric Acid, Iron EDTA, Manganese EDTA, Zinc EDTA

- Quickly absorbed phosphite fertilizer.
- Energizes plant through increased ATP production.
- Increases plant antioxidant production helps guard the plant from free radical destruction.
- Increases plant metabolism enabling the plant to quickly repair cell damage.
- Zn provided for optimal antioxidant formation.
- Mn provided for optimal photosynthesis.
- High potassium content for increased cell strength, better drought tolerance and disease tolerance.

pH: 7.05
13.0 kg (28.8 lb)
9.46 L (2.5 US gal)
1.38 kg / L

Foliar Relief 3-7-18 is developed to provide maximum plant response during periods of drought, heat and disease pressure. Foliar Relief contains multi-forms of phosphorus, high concentration of potassium and key micronutrients necessary for turfgrass to thrive during summer stress. High quality turf, when treated with Foliar Relief 3-7-18, will respond with increased photosynthesis and improved overall vigor.

DIRECTIONS FOR USE

GOLF COURSE GREENS & TEES	Apply 88 ml to 178 ml per 93 m ² (3.0 to 6.0 US fl oz per 1000 sq ft) in enough water to provide sufficient coverage. Apply every 7 to 14 days throughout the growing season. Higher turf stress levels may require higher rates.
FAIRWAYS ATHLETIC FIELDS LAWNS	Apply 88 ml to 266 ml per 93 m ² (3.0 to 9.0 US fl oz per 1000 sq ft) in up to 2.0 US gal water. Apply solution to 1000 sq ft of actively growing turf. Apply every 14 to 28 days throughout the growing season.
