MADE IN USA

Net Contents:
4 Boxes
Each Box 6x5.25 oz. unit

FIRST AID

If on Skin: Wash with soap and water. Consult a physician if any irritation persists
If in Eyes: Rinse with clean water for 15 minutes. Remove contact lenses after the first 5 minutes and continue to rinse. Seek medical attention if irritation persists.
If Ingested: Call 911 or a physician for treatment advice. Have the product label with you when calling a doctor or going for treatment.

USE RESTRICTIONS

Do not apply this product to water intended for direct human consumption. Do not use this product in streams, rivers or other bodies of water which are not under the control of the applicator. Only use this product in accordance with local, state and Federal regulations.

DIRECTIONS FOR USE

FOR APPLICATION TO PONDS, LAKES, FISHERIES AND ORNAMENTAL BODIES OF WATER.
IMPORTANT: DO NOT APPLY THIS PRODUCT TO WATER INTENDED FOR HUMAN CONSUMPTION. DO NOT USE THIS PRODUCT FOR STREAMS, RIVERS OR OTHER BODIES OF WATER, WHICH ARE NOT UNDER THE CONTROL OF THE USER. Apply either directly from container along shoreline or pour from a slow-moving boat. Wind and water currents will slowly disperse and mix Black Pond Dye uniformly throughout the entire body of water. Black Pond Dye can also be applied using a hand-held "Hudson-type" pressure sprayer. Use caution in windy conditions. For best results, apply early in the spring and throughout the season as color intensity indicates.

RECOMMENDED RATES

Apply 22 ounces (650 ml) per acre-foot* of water.
In bodies of water over four feet deep: Determine the initial number of ounces of Black Pond Dye to apply by multiplying the surface acres of the body of water by 4. Once dye has been applied and dispersed, color intensity can be increased by adding additional Black Pond Dye, if desired.
In bodies of water less than four feet deep: Determine the initial number of ounces of Black Pond Dye to apply by multiplying the surface acres of the body of water by the average depth. Once dye has been applied and dispersed, color intensity can be increased by adding additional Black Pond Dye, if desired.
**Recommendations are based on acre-feet of water. One acre-foot is the quantity of water that would cover one surface acre to a depth of one foot. One acre-foot of water is approximately 326,000 gallons.*

STORAGE AND CONTAINER DISPOSAL

Store above 32°F. Store this product in a dry place, in original container only. Keep lid tightly closed. Keep away from open flame or intense heat. Triple rinse container and offer for recycling or dispose of in accordance with federal, state and local authorities.

CONDITIONS OF SALE

Seller warrants that products will be labeled as required under state and federal laws and that they conform to the label description. Any non-conformance must be reported in writing to Seller within thirty (30) days after purchase as a prerequisite to maintaining any claim against Seller. Buyer agrees to inspect all products purchased immediately upon delivery. The seller's liability under this warranty is in lieu of all other warranties, expressed or implied, including warranties of merchantability and fitness for a particular purpose. There are no warranties which extend beyond this statement.
