

IMPROVE SPRAY COVERAGE • IMPROVE EFFICIENCY

REDUCE WILT • REDUCE ALGAE • REDUCE UVB DAMAGE • REDUCE UVB DRIFT

REDUCE RAIN WASH-OFF • IMPROVE QUALITY • REDUCE WATER USAGE

**Add 1 - 2 Quarts per 100 gallons water
SHAKE WELL & ADD LAST**

TNT - Turf & Tank Enhancer is a tank-mix additive intended for use to improve sprayable turf maintenance products. TNT can extend active ingredient longevity by reducing breakdown from UVB radiation, prevent active ingredient wash-off from rain events, reduce drift, improve spray uniformity and coverage and aid in canopy penetration.

At higher rates (2-3 QTS/100 gallons) TNT can improve turf quality and appearance.
