Fungicides		
Banner Maxx	Banner Maxx is the industry leader in dollar spot control.	2 x 3.78 L
Banol	Banol turf fungicide delivers preventive and curative systemic protection against Pythium species associated with Blight and Dampening-off, with very low potential for resistance.	4 x 3.78 L
Civitas & Harmonizer	CIVITAS™ is a two part system intended to be used with Civitas Harmonizer. Civitas treats disease and works to prevent diseases from taking hold in the first place with no known resistance risk. A unique Mode of Action in Civitas is Induced Systemic Resistance (ISR). Civitas helps turf become healthier and therefore less prone to stress. In addition, Civitas provides a barrier that helps prevent pathogens from accepting or using the host plant.	Civitas: 20 L Harmonizer: 1.25 L
Compass 50 WDG	Compass® fungicide is a broad-spectrum strobilurin fungicide that offers a revolutionary mesostemic mode of action delivering the highest efficacy at very low rates against turfgrass diseases, especially brown patch, anthracnose, leaf spot, and gray leaf spot.	4 x 454 g
Concert	Concert fungicide provides golf course superintendents with preventive and curative disease control on all playing surfaces by using a proprietary blend of the active ingredients from Banner Maxx and Daconil.	2 x 10 L
Daconil Ultrex	Daconil Ultrex is water dispersible granule formulation containing 82.5 % Chlorothalonil. Daconil Ultrex has a built-in surfactant, adjuvant and compatibility system called WeatherStik. The WeatherStik technology provides extended protection, even after heavy rains or irrigation.	4 x 2.27 kg

Fungicides (continued)		
Daconil 2787	DACONIL 2787 is a contact fungicide that targets multiple sites in the fungal pathogen.	2 x 10 L
Exteris Stressgard	Exteris Stressgard is a new fungicide in the SDHI class of chemistry that is combined with trifloxystrobin to provide long-lasting, preventative and curative control of foliar turf diseases.	2 x 10 L
Heritage Maxx	Heritage Maxx is the only systemic strobilurin translocated upward through the roots, crown, stems and leaves, protecting the entire plant. Heritage Maxx is effective against root-borne disease due to its ability to be taken up quickly by the roots and because of its systemic and curative properties.	2 x 3.78 L
Instrata	Instrata fungicide is the foremost product for protection against both pink and grey snow mould. Its combination of 3 active ingredients is uniquely capable of outperforming conventional snow mould products and tank mixes.	2 x 7.1 L
Interface Stressgard	Interface Stressgard provides flexible, effective disease control under all conditions. The combination of iprodione, trifloxystrobin and Stressgard Formulation Technology provides a solution for diseases and plant stresses under hot, cool, wet or dry conditions.	2 x 10 L
Kabuto	Kabuto fungicide delivers a new and unique active ingredient for powerful Dollar Spot control. Kabuto makes an excellent alternative to DMI (Group 3) chemistry when trying to manage fungicide resistance.	4 x 2 L
Medallion	Medallion is a broad-spectrum, contact fungicide that offers protection against several damaging diseases, including Fusarium patch, Anthracnose, Leaf Spot and Brown Patch.	2 x 3.78 L
Mirage Stressgard	Mirage Stressgard provides broad-spectrum control of important diseases like dollar spot, anthracnose, summer patch, fairy ring and snow moulds on fairways, tees, and greens. Tebuconazole powered by Stressgard Formulation Technology provides a great solution for tough diseases, while minimizing negative turf growth regulator effects that are seen with other DMI fungicides.	2 x 5 L

Fungicides (continued)		
Primo Maxx	The original and trusted turf growth regulator that pre-conditions for stress and optimises surface quality and resources.	2 x 3.78 L
Renovo	Renovo is a broad spectrum systemic fungicide that offers golf courses a unique mode of action. Renovo is the only FRAC Group 1 fungicide registered for control of turf diseases in Canada. This makes Renovo an effective tankmix or rotational product.	2 x 10 L
Signature Stressgard	Signature Stressgard (formerly Aliette Signature) is a unique, highly systemic fungicide that represents an invaluable tool in preventing diseases related to stress like the Pythiums spp. With its complex mode of action, Signature Stressgard is also known to improve turf quality by enhancing the plants defense mechanisms and vigour.	4 x 2.26 kg
Subdue Maxx	Subdue Maxx systemic fungicide provides outstanding Pythium control for all seasons.	4 x 1 L
Trilogy Stressgard	Trilogy SC with Stressgard formulation technology combines winter long triple protection against snow moulds and improves turf quality.	2 X 10 L
Triton Stressgard	Broad spectrum DMI that offers excellent control of Anthracnose, Dollar Spot, Brown Patch, as well as Pink and Gray Snow Mould.	4 x 2 L
Velista	Velista fungicide is the only SDHI labeled for anthracnose in the golf market. Velista also protects against dollar spot, brown patch and more. Ideal for spring and fall clean up on greens, tees and fairways.	6 x 624 g

Herbicides		
Dimension	DIMENSION specialty herbicide provides pre-emergence and early post-emergence control of crabgrass.	4 x 4 L
Gramoxone	GRAMOXONE is a non-residual Herbicide for the control of many Grasses and Broadleaf Weeds. Inactivated on contact with the soil.	4 x 5 L
Mecoprop-P	MECOPROP-P provides post emergent control of broadleaf weeds such as chickweed, clover and plantain.	2 x 10 L
Par III	PAR III is a broad-spectrum herbicide specially formulated with 3 active ingredients to control hard-to-kill annual and perennial weeds in turfgrass.	2 x 10 L
QuickSilver	QUICKSILVER works by effectively inhibiting a key enzyme in moss chlorophyll production. It leaves minimal residue following application allowing for fast reestablishment of bentgrass.	4 x 237 mL
Reward	For control of weeds in still or slow-moving water and for weed control in non-crop land.	4 x 3.78 L
Roundup WeatherMAX	ROUNDUP WEATHERMAX is a non-selective herbicide with the active ingredient glyphosate.	2 x 10 L
Vanquish	VANQUISH controls deciduous and coniferous brush species as well as broadleaf weeds.	2 x 10 L
Velocity	VELOCITY is a postemergence herbicide that will selectively reduce the presence of annual bluegrass (<i>Poa annua</i>) within bentgrass, perennial ryegrass, Kentucky bluegrass and tall fescue.	5 x 4 x 56.7 g

Insecticides		
Acelepryn	ACELEPRYN insecticide is a suspension concentrate with unmatched season long control with a single application. Provides control of grub species, caterpillars (cutworm) and annual bluegrass weevils.	4 x 1.89 L
Arena 50 WDG	Arena 50 WDG insecticide is a broad spectrum insecticide for control of a wide spectrum of insects infesting turfgrass and provides excellent and long residual insect control.	4 x 1.13 Kg
DeltaGard SC	DELTAGARD is a highly effective, fast acting contact insecticide to control chinch bug, cutworm, ants, sodweb worm and ticks in turf.	4 x 1 L
Merit 0.5 G Granular	MERIT has fast become the standard proven insecticide for grub control on a wide range of turf surfaces. Ready-to-use granular.	13.6 kg
Merit 75 WP Solupak	MERIT has fast become the standard proven insecticide for grub control on a wide range of turf surfaces. Solupak formulation; 75% wettable powder in a soluble bag.	16 x 45 g
Pyrate 480 EC	PYRATE 480 EC is a highly effective insecticide for the control of turf pests such as ants, chinch bugs, cutworm, leatherjackets, sod webworms and turfgrass weevils on golf courses, highway medians, industrial sites and sod farms.	2 x 10 L
Sevin T&O	SEVIN T&O provides excellent control of surface feeding insects. It is an outstanding curative insect control material, has a short soil residual, and a favourable applicator and environmental record.	2 x 10 L

Class 11		
Acecap	Acecap systemic insecticide implants are used for control of certain destructive pests of ornamental and forest trees. Easy-to-use encapsulated implants. No mixing, measuring, or spraying required.	100 x 77.3 g
Fiesta	Fiesta turf weed killer is a mineral-based herbicide that is perfect for spot treatment of broadleaf weeds in lawns, turf, parks, playgrounds, cemeteries and athletic fields.	2 x 10 L
Medicap MD 12-4-4	Medicap MD systemic nutrient implants for trees offer a special formulation of highly water soluble plant nutrients and are designed to stimulate tree foliage. Contains essential minor elements. This product may be helpful in promoting development of plant growth and is designed to be used in conjunction with soil applied fertilizers where possible.	100 x 3/8"
Munger Horticultural Vinegar Plus	Munger Horticultural Vinegar Plus is a liquid herbicide for non-selective vegetation control in and around the garden, established trees and shrubs, sidewalks, driveways, and patio. It is specifically designed as a post emergent, foliar active, vegetation management product that is non-selective to green foliage and non residual in soil.	2 x 10 L
Phostrol	Phostrol is an extremely systemic and highly unique phosphite fungicide that has both a direct and indirect effect on harmful turfgrass diseases. Phostrol is an effective, convenient and flexible tool for the management of Anthracnose and Pythium Blight.	2 x 10 L

Specialty		
AntiFoam Agent	AntiFoam Agent neutralizes foam in tank mixes to promote an even distribution of sprayable products.	6 x 6 oz
Blazon	Blazon Spray Pattern Indicator is a non-staining blue liquid colorant designed to be used with pesticide, fertilizer and/or plant growth regulator tank mixes. Blazon provides visual assurance that these solutions are uniformly applied, with minimum overlap and no missed areas.	2 x 10 L
Big Foot WSB	Big Foot WSB is a premium grade spray pattern indicator packaged in a convenient water soluble bag. Just drop the bag in the spray tank and that's all! No measuring and no container disposal.	Pail of 40
Blue Lagoon	Blue Lagoon pond dye adds a natural beauty to ponds, lakes, fountains and lagoons, coloring them a natural, beautiful blue. When used as directed, this product will not stain or harm fish or wildlife.	2 x 2.5 Gal.
Blue Lagoon WSB	Blue Lagoon WSB pond dye adds a natural beauty to ponds, lakes, fountains and lagoons, coloring them a natural, beautiful blue and comes in a convenient easy-to-use water soluble bag configuration. When used as directed, this product will not stain or harm fish or wildlife.	Pail of 50
Fairway Snake	Fairway snakes are designed to remove dew, clippings, and castings from fairways in a single pass, eliminating the catalyst of several turf diseases, without the use of chemicals. The heavy, durable cording is designed to last through multiple uses over several years.	Available lengths: 100 foot 150 foot 200 foot
Gundown Max Foam Destroyer	Gundown Max is formulated to aggressively neutralize foam in all pesticide and/or fertilizer tank mixes regardless of spray solution pH. Unlike ordinary defoamers, Gundown Max's unique blend of formulation aids and emulsifiers will not precipitate in low pH spray solutions, making it ideal for use with all glyphosate formulations.	12 x 946 mL
Neutra Clean	Neutra Clean spray tank cleaner is an extremely powerful cleaner/emulsifier. It re-emulsifies and suspends spray tank residues so that they may be removed from the interior of the spray equipment.	4 x 1 Gal.
Reel Diamond Lapping Compound	Reel Diamond Lapping Compound is used to maintain consistent cutting performance of course mowers. 80 Grit and 100 Grit types are suitable for fairway mowers; 120 Grit is suitable for green and tee mowers.	Available types: 80 Grit 100 Grit 120 Grit

Specialty (continued)		
Wintergreen Scent	Wintergreen Scent is a spray tank additive that contains a concentrated fragrance used to mask objectionable odours.	12 x 946 mL
