

## OSC Turf Liquid / Foliar Golf Course Fertilizer

<b>26-0-0 N-Durance Pro</b>	26-0-0 N-Durance is an economical, multiple slow release formulated liquid fertilizer designed for foliar applications on turf.	2 x 2.5 Gal. or 208 L Drum
<b>18-3-4 Zeta4Plex</b>	18-3-4 Zeta4Plex provides safe, reliable nutrients enhanced with patented amino technology and our plant derived L-amino acid package. These bioactive ingredients increase nutrient absorption and maximize plant nutrition through the use of low dose applications.	2 x 2.5 Gal. or 208 L Drum
<b>N-Liven 15 15-0-1</b>	N-Liven 15 is a Urea-N based fertilizer with plant extracts providing a perfect foundation for foliar nutrient programs.	2 x 2.5 Gal. or 208 L Drum
<b>12-4-6 Bio Based</b>	12-4-6 bio based fertilizer offers balanced nutrition from natural sources. Combination of sea plant extract, fulvic acids, amino acids and secondary nutrients allow 12-4-6 to be an excellent source of elemental nutrition.	2 x 2.5 Gal. or 208 L Drum
<b>10-0-0 Zeta4Plex Energy</b>	A liquid micronutrient package enhanced with blackstrap molasses. Energy increases chlorophyll production, photosynthesis and plant carbohydrate levels. Energy will provide excellent plant color response due to superior uptake of micronutrients chelated with gluconates.	2 x 2.5 Gal.
<b>9-0-0 Zeta4Plex 12% Ca</b>	9-0-0 12% Ca Zeta4Plex provides safe, reliable nutrients enhanced with patented amino technology and our plant derived L-amino acid package. 9-0-0 increases nutrient uptake, nutrient transport and improves plant tolerance of environmental stress.	2 x 2.5 Gal. or 208 L Drum
<b>N-Fuze 7-0-0</b>	N-Fuze is formulated with a premium L-Amino Acid package which improves overall plant performance and increases uptake of tank mix products. It promotes acidification of root zone when used over extended periods and is a perfect nitrogen source for spoon feeding programs.	2x 2.5 Gal. or 208 L Drum
<b>Assure II 5-16-4</b>	Assure II is a unique blend of nutrients useful for many situations. The high phosphorus formulation is suitable for grow-ins, recovery, sod establishment and where P deficiencies are a problem.	2 x 2.5 Gal. or 208 L Drum
<b>Foliar Relief 3-7-18</b>	Foliar Relief 3-7-18 is developed to provide maximum plant response during periods of drought, heat and disease pressure. It contains multiple forms of phosphorus, high concentration of potassium and key micronutrients necessary for turfgrass to thrive during summer stress.	2 x 2.5 Gal. or 208 L Drum

OSC Turf Liquid / Foliar Golf Course Fertilizer (continued)

<b>Zeta4Plex Grow 40</b>	Zeta 4plex™ Grow 40 is the most concentrated amino acid supplement for turfgrass. Focused amino acid packages provides metabolic flexibility for the turf—allowing the turf to create other amino acids or metabolites that fix nitrogen, carbon, create energy, or flow into the vacuole and act as anti-stress compounds.	2 x 2.5 Gal.
<b>1-0-15 Zeta4Plex</b>	Safe reliable nutrients enhanced with a plant derived L-amino acid package and patented amino technology. 18 L-amino acids work in various pathways to increase nutrient uptake, nutrient transport, and improve plant tolerance of environmental stress.	2 x 2.5 Gal. or 208 L Drum
<b>Talon Nutrient Pak</b>	Talon Nutrient Pak is a unique turf product, which includes a proprietary, all natural biostimulant package designed to provide a unique and active plant response. Read the label carefully and consult your EnP Turf representative for proper use of this product.	2 x 2.5 Gal.
<b>MGN 5 Zeta4Plex</b>	Safe, reliable nutrients enhanced with patented amino technology and our plant derived L-amino acid package. MGN 5 Zeta4Plex increases nutrient uptake, nutrient transport, and improves plant tolerance of environmental stress.	2 x 2.5 Gal. or 208 L Drum
<b>Carbo 5 Fe Foliar and Root Absorbed Iron</b>	A revolutionary iron delivery technology driven by polysaccharide chelation. These carbohydrates protect the nutrient and deliver iron to the roots. Once inside the plant, this natural sequestering agent is able to move rapidly throughout the plant to ensure quick delivery of iron to the chloroplasts.	2 x 2.5 Gal.
<b>Zeta4Plex Iron with Manganese</b>	Zeta4Plex Iron is a brand new, unique combination of iron and manganese that is protected by three different natural and modified plant metabolites. The low-molecular-weight plant metabolites allow for movement through the stomatal pores and trans-cuticular pores; the high-molecular-weight modified plant metabolite chelates the iron and manganese for secondary uptake via the soil. This engineered redundancy ensures rapid uptake for the turf in all growing conditions.	2 x 2.5 Gal.
<b>Nutri-Synergy KMg</b>	Protects nutrients from adverse interactions in the soil, which render them unavailable. Proprietary carbon compounds deliver K and Mg safely to the plant rhizosphere. Can be tank mixed with wetting agents and other soil applied nutrients.	2 x 2.5 Gal.
<b>Nutri-Synergy P</b>	Protects nutrients from adverse interactions in the soil, which render them unavailable, while increasing phosphorus uptake and efficiency by as much as 30%. Reduces nutrient waste and the need for additional nutrient inputs because Nutri-Synergy unlocks the tied-up nutrients that already exist in the soil, turning them into plant usable nutrition.	2 x 2.5 Gal.
<b>Nutri-Synergy K</b>	Protects nutrients from adverse interactions in the soil, which render them unavailable, while increasing potassium uptake and efficiency by as much as 30%. Provides a high analysis liquid potassium that can be effectively tank mixed with other nutrients and wetting agents.	2 x 2.5 Gal.
