

L-93 XD & T-1

Elite Creeping Bentgrass Blend

T-1 fairway in transition zone.

Where else can you find two centuries of combined expertise in the seed industry?

2 Amazing Companies—1 Great Partnership

Ontario Seed Company with over 125 years of growing service and Jacklin Seed with over 80 years of innovation team together bringing you

L-93 XD & T-1 elite creeping bentgrass blend.

These two elite powerhouse bentgrass varieties bring enhanced disease tolerances and championship performance to your greens, tees and fairways.

NEW!

L-93 XD
CREEPING BENTGRASS

- Setting the new standard for leaf texture & uniform canopy
- VERY quick to establish! Excellent for interseeding
- Superb tolerance to dollar spot and heat stress
- Excellent variety for the superintendent that likes to manage on the dry side

T-1
CREEPING BENTGRASS

- Very versatile! Adapts to all mowing heights, up to ½ inch
- Aggressive recovery with minimal thatching
- Proven performance at all levels of maintenance
- Many years of documented interseeding success

*Rapid Establishment! This photo was taken
5 days after seeding L-93 XD.
