## 10-0-0

A liquid micronutrient package enhanced with blackstrap molasses

### GUARANTEED ANALYSIS

|  |       |
|--|-------|
| Total Nitrogen (N).....                  | 10.0% |
| 10.0% Organic Water Soluble Nitrogen (N) |       |
| Sulfur (S).....                          | 4.0%  |
| Iron (Fe).....                           | 2.5%  |
| Manganese (Mn).....                      | 2.5%  |
| Zinc (Zn).....                           | 2.5%  |

Derived from: Urea, Iron Sulfate, Manganese Sulfate, Zinc Sulfate, Complexed with Natural Sugars and Gluconic Acid

### NITROGEN RATES:

- 3 fl oz = 0.026 lbs N per 1000 sq ft
- 6 fl oz = 0.052 lbs N per 1000 sq ft
- 9 fl oz = 0.078 lbs N per 1000 sq ft
- 12 fl oz = 0.10 lbs N per 1000 sq ft

N per gallon: 1.1 lbs  
 Weight per gallon: 11.3 lbs  
 pH: 2.5

**Energy 10-0-0 is intended as a supplement to a regular fertilization program and may not by itself provide all the nutrients normally required by plants**

The information contained in this brochure is believed to be accurate and reliable. It is provided as a means of explaining the products for the benefit of the potential user. EnP Investments cannot be held responsible for any unintentional errors in description of usage due to errors or omissions. EnP Investments further warrants that the products represented in this brochure conforms to the chemical description and are reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. EnP Investments shall not be responsible for incidental or consequential damages resulting from the use of any product contrary to label instructions or under abnormal conditions or conditions not reasonably foreseeable to EnP Investments.

### ENERGY 10-0-0

- Energy combines blackstrap molasses, organic nitrogen, iron, manganese and zinc complexed with natural sugars.
- Energy increases chlorophyll production, photosynthesis and plant carbohydrate levels.
- Especially useful when plant metabolism declines due to low sunlight and sub-optimal temperatures.
- Energy will provide excellent plant color response due to superior uptake of micronutrients chelated with gluconates.
- Sugars from natural molasses energize plants and microbes with available carbon sources.
- Greatly increases microbial activity and can aid in thatch reduction.

### GENERAL USE GUIDE

|                                 |   |
|---------------------------------|---|
| <b>Greens and Tees</b>          | Apply 3.0 to 9.0 fl oz per 1,000 sq ft every 7 to 21 days.                                  |
| <b>Fairways and Sports Turf</b> | Apply 1.0 to 3.0 gal per acre every 2 to 3 weeks. For cool weather grasses use lower rates. |
| <b>Recovery</b>                 | Turf subject to heavy traffic, apply 2.0 to 3.0 gal per acre as a healing application.      |
