

# AERATION RECOVERY

Treat your aerated turf with a complete foliar program that includes natural plant extracts and active L-amino acids. This program results in more rapid closure of core cultivation holes, improved turf recovery and higher quality turf. With the use of this program, nitrogen applications for the purpose of aeration recovery can be considerably reduced or quite possibly eliminated.

<i>Product</i>	<i>Benefits</i>	<i>Rate / 1000 sq ft</i>
<b>N-Liven 15</b>	Provides rapidly available nitrogen along with sea plant extracts and humic acids to promote root development. The natural components will help turf handle stress during this period of intense cultural management.	8 oz
<b>Talon</b>	Improves lateral growth of stolons, rhizomes and enhances foliar recovery. Talon improves cell division, nutrient use, photosynthetic properties and helps turf maintain healthy green color.	1.5 oz
<b>Zeta<sub>4</sub>Plex<sup>®</sup> Grow 40</b>	Patented amino acid technology drives protein and enzyme production. This improves plant energy aspects for more rapid turf recovery.	1 oz

## *Optional Product*

<b>Nutri-Synergy<sup>®</sup> Phosphorus</b>	High phosphorus supplement enhances protein synthesis, cell division, and the development of new tissue.	3 oz
